

Freedom of Information Act 2000

Guide to Information provided by Parish/Community Councils under the model publication scheme

This template guide is written for the use of Parish and Community Councils.

It gives examples of the kind of information the Information Commissioner's Office (ICO) would expect you to provide in order to meet your commitment under the model publication scheme, introduced through the Freedom of Information Act 2000 (FOIA). In 2008, the ICO introduced a generic model publication scheme, for adoption by all public authorities that are subject to FOIA.

The model publication scheme commits you to 'produce and publish the method by which the specific information will be available so that it can be easily identified and accessed by members of the public'.

The [model publication scheme](#) is available on the ICO website. Further details are available in ICO guidance: [Using the definition documents](#).

You must adopt the model scheme in full, unedited and promoted alongside the guide to information. You do not need to tell the ICO that you have adopted the scheme; we will assume they have done so unless we hear otherwise.

You are in breach of FOIA if you have not adopted the model scheme or are not publishing in accordance with it.

Model Publication Scheme

The table below identifies the specific information the ICO expects you to publish under each of the seven classes of information set out in the [model publication scheme](#).
